

ALEXANDRA FLEVA Bsc, PhD

Born and raised in Greece. Received my Bsc in Biology from the University of Massachusetts, Boston, USA in 1990 and my Ph.D in Immunology from the Aristotelian University in Thessaloniki, Greece in 2000.

Worked as a Laboratory Immunologist in AHEPA General Hospital and in the private Center of Immunological Research and Immunotherapy, Thessaloniki, Greece. Since 2001 as a Senior Scientist and Supervisor in the Flow Cytometry Laboratory of the Immunology – Histocompatibility Department of Papageorgiou General Hospital, Thessaloniki, Greece

Memberships

Member of the Board of the Hellenic Flow Cytometry Society
Hellenic Immunology Society
European Society of Clinical Cell Analysis (ESCCA)

Publications

16 oral presentations in congresses scientific meetings and training courses
33 publications in International and Greek Journals

Having a 17 years experience in flow cytometry and more than 20 years in immunology I am looking forward for a position in the ESCCA Board. If elected, my strong scientific expertise in immunology and flow cytometry could contribute to ESCCA success. My commitment to team effort and cooperation, along with my fluent communication skills could contribute to the spread of flow cytometry knowledge at every level of continuous education. Furthermore as member of both ESCCA and Hellenic Flow Cytometry society, I am willing to ensure the existing excellent collaboration of the affiliated societies
