

**9th April 2026**  
14.30 - 17.30

**Opening:** J.A. Flores Montero; M.T. Scupoli

14.40-15.30 **1<sup>st</sup> session**

**Rare populations in Hematologic Malignancies setting**

Chairs: F. Buccisano ; A. Gatti

Flow Cytometry in CNS disease of Hematologic Malignancies:  
comparing ESCCA/ISCCA  
recommendations and survey results  
Ilaria Del Principe (ISCCA)

Leukemic Stem Cell as a Biomarker:  
Flow-Cytometric Insights and Clinical Application - From Bench to Bedside.  
Adriana Plesa (ESCCA)

15.30-16.10 **2<sup>nd</sup> session**

**Systemic mastocytosis & BCPDN two diseases one marker: CD123**

Chairs: J.A. Flores Montero; F. Buccisano

Immunophenotyping of systemic mastocytosis.  
Clinical and biological significance  
Ludovic Lhermitte (ESCCA)

BPDCN: A Diagnostic Challenge  
A. Gatti (ISCCA)

16.10-17.20 **3<sup>rd</sup> session**

**T and NK lymphoproliferative disorders: advances in the diagnosis**

Chairs: F. Buccisano; G.Del Zotto

NK-LGLL at the Crossroads of Cytometry and Molecular Biology:  
Advances in Diagnosis and Characterization  
Mikael Roussel ( ESCCA)

Cytometric issues in the diagnosis of T-lymphoproliferative disorders: T-CUS or LGLL?  
Valentina Trimarco ( ISCCA)

**Closing:** J.A -Flores Montero; M.T. Scupoli

**Course Language**

English
